

In-Situ Rugged Reader®

The instrument is compatible with both the 9500 multiparameter water quality instrument and the suite of Level Trolls. Collect, store, analyze and transfer data using this ultra-rugged, multi-purpose, hand-held PC. Improved smart battery, faster processing speed, a more flexible interface and the latest Microsoft® operating system make the new Rugged Reader® a must have.

FEATURES & BENEFITS:

- Wide Instrument Capability - Use with all TROLL Instruments including: Level TROLL® 300, 500 & 700, Aqua TROLL® 200, TROLL® 9500, and TROLL® 9000.
- Latest Microsoft Operating System - Microsoft Windows Mobile® 5 includes Microsoft Internet Explorer, Word, Excel®, PowerPoint®, Outlook®, ActiveSync®, plus more ore. Enjoy all the benefits of a handheld PC.
- Smart Lithium-IUon Battery - Smart battery cannot be overcharged and operates for up to 20-hours on one charge.
- IP-67 Rating - Ultra-rugged construction protects against dust and accidental submersion
- High Contrast, Color LCD - View data easily even in direct sunlight. Select between portrait or landscape view!
- Loaded with In-Situ Software - View real-time data, set up tests, download data, calibrate sensors, view calibration reports plus a lot more.
