

ALUMINUM LOCKING WELL CAPS

Aluminum locking caps along with steel pipe provide an effective casing protector for monitoring wells and preventing vandalism. An aluminum ring is fastened to steel casing with set screws. When the cap is installed, it covers the ring (and the set screws) giving a vandal proof cover.

OUTSIDE DIAMETER:

- 2 2/8
- 4 1/2"
- 5 5/8"
- 6 5/8"
- 8 3/4"
- 10 3/4"
- 12 3/4"

FEATURES:

- Two piece assembly
- Cast from rust proof aluminum
- Fits standard #1 Padlock
