

PRE-PACK WELL SCREEN

Rice Pre-Pack Screens combine a centralized inner well screen, a developed filter sand pack and an outer conductor screen in one integrated unit. This unique dual-wall well screen can be installed at any angle and comes with an ASTM F-480 flush thread. Rice pre-pack screens are available with slot openings from 0.010" to 0.250" and pipe sizes from a 1" inner well screen up to a 12" outer well screen.
