

## **PLIDCO® FLANGE REPAIR+SPLIT SLEEVE**

Used to seal and fully encompass flanges for on-shore and off-shore applications. This sleeve stops the leaking flanges by sealing on the pipe beyond the flange welds with the ability to cover a wide variety of flange types and classes.

### **Benefits:**

- *Patented steel GirderRings hold seals in place and protect them from displacement and damage during installation.*
- *Covers a wide range of flange types and classes*
- *Wide range of seal material in stock.*
- *Used for on-shore and off-shore applications.*
- *Safe and easy installation.*
